- Credit Checks
- International Background Checks
- Additional Services

What Makes Us Different

Live US Based Support

Our US-based customer service team delivers real-time support via phone, email, and chat, addressing inquiries within 10 minutes during business hours.

Verified by Humans

We don't let any criminal data go out without taking the time to make sure it belongs to the right person. Most providers don't, but we think it's important to get it right. Anything less would be a background check without the checking.

Fast & Free Integration

Our Average integration time is 10 - 15 business days for PageUp Clients, ensuring your clients experience minimal disruption. We never charge an integration fee, making the transition smooth and cost effective.

No Long-Term Contracts

We believe in earning your business through performance, not binding contracts. Our flexible service agreement allows the Client to adjust their service plan as your needs evolve, with no long-term commitments.

i9 / E-Verify Integration

Whether you are required by the government to conduct E-Verify or Form I-9 Services & Storage, our solution was built for ease. The Client will be able to launch the process in just a single click, allowing for extra time to be spent on other HR functions.
